MEMORANDUM TO: All Recruiters and Their Staffs

SUBJECT : Unit Award

1. I thought you might like to see the paperwork that went forward on our requested unit citation for your black recruitment activities. The hand-written comments on the transmittal sheet and the second page are Mr. Colby's. This should dispel any lingering doubts you may have had about your efforts being appreciated back here. They are!

and I all say thanks for a job extremely well done.

2. As you know much better than I, laurels are not for resting upon in the recruitment field. So -- this year our goal has to be more and better minority applicants, especially blacks and Hispanic-Americans. We're counting on you to keep them coming. The better qualified the minority applicants are the greater pressure we can keep on the operating components to seriously consider them on the merits.

3. Again, let me personally congratulate all of you for both your efforts and your accomplishments. Next time Neil makes his rounds, I will be with him. That I'm looking forward to -- and the conference, of course.
